PROFESSIONAL SUMMARY

Results-driven Software Developer with hands-on experience building cross-platform mobile applications and responsive web applications using Flutter, Next.js, Firebase, and Supabase. Actively expanding expertise in React.js and full stack web development. Demonstrated ability to integrate REST APIs, work with SQL and NoSQL databases, and deliver scalable, user-friendly software solutions. Experienced in Agile development environments with a strong focus on clean code practices, testing, debugging, and problem solving.

TECHNICAL SKILLS

Languages: Dart, JavaScript, Python, SQL

Frontend: React.js (Learning), Next.js, HTML5, CSS3, Responsive Web Design

Mobile: Flutter, Cross-Platform Development (Android & iOS)

Backend & Database: Firebase, Firestore, Supabase, PostgreSQL, REST API Integration

State Management: Provider

Tools: Git, GitHub, VS Code, Android Studio, Figma

Practices: Agile Development, Testing, Debugging, Deployment, Clean Code Practices

PROFESSIONAL EXPERIENCE

IT Head — Wincentre

Full-Time

Thrissur, Kerala, India

2023 – Present

- Architected and developed an Employee Management System (EMS) and CRM platform using Next.js and Supabase, streamlining HR and customer workflows across the organization.
- Designed and deployed responsive web applications with clean, user-friendly interfaces, reducing manual processing time through software automation.
- Integrated RESTful APIs and managed SQL/PostgreSQL databases to support scalable backend services and real-time data operations.
- Led end-to-end website development and deployment, collaborating directly with stakeholders to translate business requirements into technical solutions.
- Applied Git and GitHub for version control, maintaining code quality through clean code practices and structured development workflows.
- Drove digital transformation initiatives using Agile development methodologies, improving team productivity and operational efficiency.

Flutter Developer Intern — Irohub Infotech

Internship

Kerala, India

2022 – 2023

- Developed and maintained cross-platform Flutter applications using Dart and Firebase, delivering responsive UI components across Android and iOS.
- Integrated REST APIs to connect mobile applications with backend services, ensuring reliable data exchange and application functionality.
- Implemented Firebase Authentication to enable secure user login and role-based access control.
- Participated in full application lifecycle including testing, debugging, and deployment, contributing to code quality and release readiness.

PROJECTS

SkillLink | *Flutter, Dart, Firebase, Firestore* | github.com/Hima-MG/SkillLink

Built a cross-platform Flutter application featuring real-time chat, course management, event management, and skill challenges with Firebase Authentication and role-based access control.

Employee Management System & CRM | *Next.js, Supabase, Shadcn UI* | github.com/Hima-MG/EMS_CRM

Developed a full stack web application with employee dashboards, CRM workflows, authentication, and reporting, deployed for internal business use.

Civilezy Website | *Next.js, Firebase* | github.com/Hima-MG/Civilezy

Designed and deployed a responsive web application integrating Firebase backend services with a modern Next.js frontend.

Wincentre Website | *Next.js*

Built and maintained the official company website using Next.js, ensuring responsive design and optimized web performance.

EDUCATION

Bachelor of Computer Applications (BCA)

2024

Yenepoya Institute of Arts, Science, Commerce and Management | Specialization: Robotics, Machine Learning & AI |
CGPA: 8.3
